Maps and terrain

Mapped in spring 2006. Previous maps: 2006008, 2006009, 9502.

The scales are on 1st day for all groups 1:10 000; on 2nd and 3rd day for the groups from Start 1 - 1:15 000; from Start 2 - 1:10 00; for marked distances all days 1:7 500; vertical contour intervals of the maps are 5 m.

The terrain varies from moderately to very hilly with height differences in the range of 30-50 meters. The forest is characterized by a considerable number of small lakes and marshes and by a rather dense network of forest roads, tracks and small paths. The eastern part of the forest is mainly deciduous forest with minimal logging and areas of self-sown forest. In this part of the terrain the runnability is good in general. The central and western parts of the forest are characterised by mixed forest vegetation (coniferous and deciduous) and slower runnability due to undergrowth and in some areas due to windfall. Visibility in the forest varies considerably. In logged areas and marshes the undergrowth is dense. Some areas of the forest are allocated to grazing cattle, runnability in these open areas is good.

RULES FOR THE COMPETITION

The SPORTident electronic punching system will be used.

Start

Pre-start time is 2 minutes on each day.

Control are printed to the front side of the maps. Additional control descriptions are available only for groups HD21E.

Start interval is 2 minutes, excluding HD21E on 2nd day is 3 minutes. At the start signal the competitors may cross the start line, take the map and begin their course via the start control.

Late start. Competitors who arrive late to the start have to ask help from the start official. Starting later is possible until the last competitor will start.

Control time: 1st day – 1 hour and 40 minutes, 2nd day – 3 hours; 3rd day – 2 hours.

Punching at the controls

Punching at the controls, by placing the SI-card into the hole on top of the control unit, the competitor will get a confirming visible and/or audible signal from the electronic control unit confirming the registration. The competitor is responsible for punching at the correct control. If the punch did not register the competitor must use the manual punch in the R-boxes on the map, R1, R2, R3 or into the edge of the map on lack of the reserve boxes. A lost SI-card will result in disqualification.

Finish

The finish time will be taken through a punch at the finish line. After the finish punch the competitor continues through the finish chute to another punch unit, where the information from the SI-card will be read out. Competitors, who have used manual punching, must inform the finish officials after emptying their SI-card. The hired SI-cards must be returned to a finish official as soon as they have been emptied on the last competition day. Result list with split-times will be given to competitors in finish area.

When a hired SI-card will lose, it costs 400 EEK.
